DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The instantly claimed process for the acid catalyzed hydrolysis of a carboxylic ester is neither disclosed nor fairly suggested by the closest art of record: Moritz et al (WO 01/27062-A2 04-2001). Moritz neither teaches nor fairly suggests recycle of aqueous carboxylic acid from the downstream process as a feed to one of the prereactors. The instantly claimed process is therefore patentable over the teaching of Moritz, the closest prior art

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
